ADVANCED EXCEL

Practice Set: Introduction to Excel.

Task Instructions:

🟦 Sheet Basics & Appearance

1. Rename the worksheet to **"Weekly Progress"**.
2. Change the worksheet tab color to **Green**.
3. Italicize all the column headings.

🟨 Font, Alignment, Format Painter, Fill Color

4. Align all the scores (Week 1 to Week 4) to the **center**.
5. Use **Format Painter** to apply the header row formatting to another row.
6. Change the font of the Name column to **Calibri**, size **12**, and make them **bold**.
7. Apply a **light yellow fill color** to the Subject column.

🟩 Excel Table Features

8. Convert the dataset into an **Excel Table** with headers.
9. Change the Table Style to a **Dark Blue** color scheme.
10. Add a **Total Row** to calculate the average of Week 1 scores.

🟫 Merge, Wrap Text, Alignment

11. Merge and center a new title **"Student Weekly Progress Report"** in Row 1.
12. Apply **Wrap Text** to the header row.
13. Align the "Class" column content to the **right**.

🟪 Autofill, Cut/Copy/Paste

14. Add a new column "Week 5 Score" and autofill with **"Pending"**.
15. Copy Week 2 scores into a new column titled **"Backup W2"**.
16. Cut and paste the "Week 5 Score" column right after "Week 4 Score".

🟥 Find and Replace

17. Find all instances of "Math" in the Subject column.
18. Replace all "English" with "Eng.".

◯ **Hide/Unhide & Quick Access Toolbar**

19. Hide the "Class" column.
20. Unhide the hidden column.
21. Add **"Table"** and **"Wrap Text"** to the **Quick Access Toolbar**.
22. Create a new Ribbon Tab called **"My Tools"** and add **"Merge & Center"** and **"Fill Color"** to it.

🟦 **Freezing, Sorting, Filtering, Inserting**

23. Freeze the top row of the worksheet.
24. Sort students by **Name in ascending order**.
25. Apply a filter on Subject and display only **"Science"** entries.
26. Insert a new row before the first student with the details:
    Roll No: 100, Name: Manu V, Class: 6, Subject: Math, Scores: 20, 21, 22, 20.

🟨 **Comment, Flash Fill, Copy to New Sheet**

27. Add a comment to "Week 2 Score" of "Diya K": **"Needs Improvement"**.
28. Copy all data to a new sheet named **"Backup"** and ensure the format remains unchanged.
29. Create a new column next to "Name" called **"Name in CAPS"** and use **Flash Fill** to convert all names to uppercase.
30. Save it in the desktop[named “Excel Basics”.
